PROFESSIONAL SUMMARY

Full-Stack Developer and UI/UX Designer with 3 internships and 2 independently deployed production applications. Built an AI-powered image forgery detector using MobileNet (TensorFlow/Keras) and a full-stack personal productivity platform covering the complete stack from Figma design to Railway/Render deployment. Proficient in the MERN stack, Python/Django/Flask, and RESTful API development. Seeking a developer role on a product-focused engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3, C, C++, PLpgSQL

Frontend: React.js, Responsive Design, Figma, jQuery

Backend: Node.js, Express.js, Python/Django, Python/Flask, RESTful APIs, JWT Authentication, CRUD Operations

ML / AI: TensorFlow, Keras, MobileNet (image classification)

Databases: PostgreSQL, MongoDB, SQL, Neon PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Postman, npm, Docker, Render, Netlify, Railway, Brevo SMTP

PROJECTS

Image Forgery Detection — *Python · Django · TensorFlow · Keras · MobileNet · Railway* [\[GitHub\]](#) [\[Live Demo\]](#)

- Built an AI-powered web application that detects digitally altered or photoshopped images using a MobileNet deep learning model (TensorFlow/Keras), deployed live on Railway.
- Engineered the full Django backend including user authentication (register/login), session management, image upload pipeline, model inference, and results dashboard.
- Implemented a privacy-first architecture where uploaded images are processed in-memory and not persisted to storage.

LifeHub — Personal Productivity & Wellness App — *JavaScript · React · Node.js · Express.js · PostgreSQL · PLpgSQL · Docker* [\[GitHub\]](#) [\[Live Demo\]](#)

- Engineered a full-stack dashboard covering task management, expense tracking, health monitoring, push-notification reminders, and live weather insights.
- Built 10+ reusable React components (70% JS, 17% HTML, 8% CSS) with full mobile responsiveness and consistent UI styling across all modules.
- Designed and implemented RESTful APIs in Node.js/Express.js handling all CRUD operations, backed by a PostgreSQL database with custom PLpgSQL logic; containerized with Docker.

WORK EXPERIENCE

UI/UX Designer Intern | [CodSoft Technologies](#)

Aug 2025 – Oct 2025

Stack: Figma, HTML, CSS

- Designed wireframes, mockups, and high-fidelity prototypes for 3+ web and mobile app screens, cutting developer revision cycles by eliminating design ambiguity before handoff.
- Collaborated with cross-functional team to translate Figma specs into pixel-accurate implementations, maintaining brand consistency across all screens.
- Audited UI components for WCAG accessibility compliance and iterated on visual hierarchy to improve readability and user flow.

Web Developer Intern | [Coding Samurai](#)

Jun 2025 – Aug 2025

Stack: HTML, CSS, JavaScript, Python/Flask, RESTful APIs

- Built and maintained responsive web applications improving cross-device compatibility across 2 client-facing features delivered in an Agile sprint environment.
- Integrated RESTful APIs for dynamic data rendering, contributing both features on schedule within the sprint cycle.
- Resolved frontend-backend integration bugs through systematic root-cause analysis, reducing open UI defect count each sprint.

Developer Intern | HJAUTECH

Aug 2025 – Sep 2025

Stack: Git, Agile/Scrum, Full SDLC

- Contributed across the full SDLC — requirements, coding, testing, and deployment — as 1 of 4 developers on a collaborative team project.
- Maintained 100% on-time sprint delivery; enforced Git branching and peer code review standards throughout the project lifecycle.

EDUCATION

B.E. Computer Science & Engineering

2022 – 2026

C. Abdul Hakeem College of Engineering & Technology, Vellore | CGPA: 8.3 / 10

CERTIFICATIONS

100 Days of Python (Angela Yu) — Udemy

Full-Stack Web Development — Udemy

Data Analytics & Cloud Engineering — Google (Coursera)

Advanced Software Engineering — Walmart Global Tech (Forage)

Software Engineering — Accenture (Forage)

Data Science & Analyst — Deloitte (Forage)

ACTIVITIES & LEADERSHIP

- Delivered technical workshops on web development fundamentals to 20+ undergraduate students.
- Member, Student Guidance Cell (SGC) — contributed to peer mentoring and student welfare programs.

Languages: English, Tamil, Hindi, Urdu
